

CALL FOR PAPERS

ICBLTBS 2020
Nov 19-20, 2020
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBLTBS 2020 : International Conference on Bioengineering Liver Transplantation and Bio Scaffolds is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering Liver Transplantation and Bio Scaffolds. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioengineering liver
transplantation
Human-scale whole-organ
bioengineering for liver
transplantation
Bioengineering considerations in
liver regenerative medicine
Tissue engineering and
applications
Liver regeneration technologies

Graft repair
Liver stem cells and organoids
Bio scaffolds
Bio printing
