

# CALL FOR PAPERS

**ICCGO 2020**  
**Nov 19-20, 2020**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCGO 2020 : International Conference on Cancer Genomics and Oncology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cancer Genomics and Oncology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cancer genomics and proteomics  
Cancer genomics and immunogenomics  
Clinical cancer genomics  
Whole genome sequencing analysis for cancer genomics  
Modelling the activity of cancer genes  
Inherited risk factors to cancer genomics

Genetic basis of tumor cell proliferation  
The evolution of the cancer genome under mutation  
Genetic basis of immune system and therapeutic interventions  
Human comparative and prostate cancer genomics  
Computational analysis in cancer genomics  
Data analysis in cancer genomics
