

CALL FOR PAPERS

ICEMA 2020
Nov 19-20, 2020
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMA 2020 : International Conference on Energy Modeling and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Modeling and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Energy systems modeling and analytics
Oil and gas production and operations
Power system operations and planning
Operations and maintenance for renewable energy generation
Gas/electricity market operations and analytics

Building efficiency including integrating EVs and demand response analytics
Industrial energy efficiency including net-zero energy facilities
Integration of renewable energy and storage in energy portfolio
Water-energy nexus: strategic policies and operational decisions
