

CALL FOR PAPERS

ICMEMM 2020
Nov 19-20, 2020
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEMM 2020 : International Conference on Mining Engineering and Mine Mechanization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mining Engineering and Mine Mechanization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mining Engineering	Politic, Historic, Cultural and
Mine Mechanization and Ventilation	Social Aspects of Mining Sector
Mineral-Material Characterization	Precious Metals
and Process Mineralogy	Recycling
Mining and Energy	Risk Assessment and Management in
Mining and Environment	Mining
Mining and Water	Rock Mechanics and Geotechnical
Mining Economics, Valuation and	Applications
Finance	Shale Gas
Mining Policies and Mine	Small Scale Mining
Legislation	Solution Mining
Modelling, Simulation and	Surface Chemistry and Flotation
Optimization	Sustainable Mining
Occupational Health and Safety	Undersea Mining
Physical Enrichment	
Plant Design and Control
