

CALL FOR PAPERS

ICPGES 2020
Nov 19-20, 2020
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPGES 2020 : International Conference on Planetary Geology and Earth Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Planetary Geology and Earth Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Global geophysics	Geology and mineral resources
Mineralogy and petrology	Geological engineering
Gravity and magnetic methods	Tectonics and sedimentation
Exploration seismology	Structural geology
Geophysical signal processing	Exploration geophysics
Geological engineering and groundwater	Mining geology
Nuclear geophysics	Volcanology
Remote sensing and GIS in geomorphology	Physical geology
Tectonics and crustal evolution	Geomorphology
Geophysics market	Geophysics and geodynamics
Petroleum geology	Planetary geology
Environmental geology	Environmental geology
