

# CALL FOR PAPERS

**ICVSPBC 2020**  
**Nov 19-20, 2020**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVSPBC 2020 : International Conference on Volcanic Structures and Plate Boundary Centres is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Volcanic Structures and Plate Boundary Centres. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- |                         |                                |
|-------------------------|--------------------------------|
| Volcanology             | Shield cones                   |
| Volcanic structures     | Lava domes                     |
| Volcanoes and heat flow | Composite explosion            |
| Nature of volcanoes     | Plugs                          |
| The magma and lava      | Maars                          |
| Plate boundaries        | Non-volcanic craters           |
| Plate boundary centres  | Strombolian eruptions          |
| Kinetics                | Vulcanian eruption             |
| Fragmentation           | Vesuvian eruptions             |
| Magmatic rocks          | Peléean eruption               |
| Types of volcanoes      | Plate tectonics                |
| Cinder cones            | Volcano monitoring and hazards |
| Composite cones         | Hazard statistics              |
