

CALL FOR PAPERS

ICAMAME 2020
Nov 17-18, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMAME 2020 : International Conference on Aerospace, Mechanical, Automotive and Materials Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace, Mechanical, Automotive and Materials Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerodynamics	Computational Mechanics
Aircraft Design and Analysis	Computational Techniques
Applied Mechanics	Driver/Vehicle Interface,
Aerodynamic Stabilization Mechanism	Information and Assistance Systems
Automation, Mechatronics and	Dynamics and Vibration
Robotics	Energy Engineering and Management
Automotive Design Engineering	Engineering Materials
Biomechanics	Fatigue and Fracture
Biomedical Engineering	Fault-Diagnosis Systems
Body and Chassis development	Fluid Dynamics
CAD/CAM/CIM	Fluid Mechanics and Machinery
Computational fluid dynamics	Fracture
Composite and Smart Materials	Fuels and Combustion
Compressible Flows	Heat and Mass Transfer
