

CALL FOR PAPERS

ICNQD 2020
Nov 17-18, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNQD 2020 : International Conference on Nonlinear Quantum Dynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nonlinear Quantum Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Condensed Matter Physics
Crystallography
Semiconductors physics and devices
Ferroics and multiferroics
Magnetic materials
Computational solid state physics
Nanoscience and Nanotechnology
Low-dimensional systems
Multifunctional nanomaterials
Nanoelectronics and information technology
Nanobiotechnology
Layered and composite nanostructures

Optical Physics, Quantum Electronics and Photonics
Optoelectronics, quantum electronics
Applied optics
Non-linear optics
Laser physics and applications
Ultrafast phenomena and applications
Materials Science & Engineering
Surfaces, interfaces and colloids
Polymers and amorphous materials
Soft and granular matter
Biomaterials science and biomedical engineering
