

CALL FOR PAPERS

ICWFER 2020
Nov 17-18, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWFER 2020 : International Conference on Wildlife Feeding and Energy Requirements is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Feeding and Energy Requirements. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife feeding and nutrition	Toxins and secondary plant compounds
Animal feeding and nutrition	Feeding captive animals
General nutrient and energy requirements	Reproductive costs
Estimation of energy and protein requirements	Productive costs
Protein requirements for maintenance	Food resources and their utilization
Nutrient requirements for maintenance	Digestion and nutrient metabolism
Nutrient requirements for growth	Food intake regulation
Nutrient requirements for reproduction	Computer models of the nutritional interaction
Food availability and habitat	Wildlife feeding in suburban environments
Indices of nutritional status	Wildlife feeding in parks
Intake control and measurement
