

CALL FOR PAPERS

ICACRE 2020
Nov 12-13, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACRE 2020 : International Conference on Advances in Chemical Reaction Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Chemical Reaction Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical reaction engineering
Chemical reactors
Catalytic reaction systems
Separation processes
Advances in chemical reaction engineering
Reaction kinetics
Extent and rate of reactions
Rate constants of elementary reactions

Measuring reaction rates
Steady-state approximation:
catalysis
Heterogeneous catalysis
Solid-catalyzed reactions
Microkinetic analysis of catalytic reactions
Nonideal flow in reactors
Nonisothermal reactors
