

CALL FOR PAPERS

ICCCBC 2020
Nov 12-13, 2020
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCBC 2020 : International Conference on Current Controversies in Breast Cancer is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Current Controversies in Breast Cancer. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Controversies in Breast Cancer

Current controversies in the

management of breast cancer

That prevention is more important than cure

That population based breast cancer screening needs reform

Advanced breast cancer: Can it be cured? Are traditional approaches outdated?

Breast cancer: New technologies that will change breast cancer management

Systemic Therapy

Current controversies in breast cancer surgery

Multigene assays for early breast cancer: Is it necessary or is traditional pathology enough?

Current controversies in neoadjuvant and adjuvant chemotherapy

Controversies in adjuvant endocrine therapy

Management of endocrine resistance

Controversies in patients with brain metastases

Controversies in the management of Her2 positive disease

Locoregional Therapy

DCIS: Overdiagnosed and overtreated, or the key to reduction in breast cancer morbidity and mortality?

Optimising breast conservation:

Better surgery, better RT, oncoplastic approaches?

Reconstruction when post-mastectomy radiotherapy is required

Supportive Care
