

CALL FOR PAPERS

ICABMS 2020
Dec 01-02, 2020
Auckland, New Zealand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABMS 2020 : International Conference on Advanced Biomedicine and Microbial Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Biomedicine and Microbial Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemistry and Biology
Morphogenesis
Network Structure and Regulation
Synthetic Biology
Systems Bioinformatics
Systems Biomedicine
Biological morphology
Network biology
Understanding and curing diseases
Cell regulation
From cell to organ to organism to population
New approaches to biotechnology
Genetic variation and evolution

Cell regulation-metabolism
Cell regulation - signalling
Cell-to-cell variation
Diagnostic markers for complex diseases
Drug discovery
Plant systems
Microbial systems
Synthetic biology
Modelling approaches
Software tools
Standards and repositories
Data generation and experimental design
