

# CALL FOR PAPERS

**ICAMERP 2020**  
**Dec 01-02, 2020**  
**Auckland, New Zealand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMERP 2020 : International Conference on Advanced Manufacturing Engineering and Remote Production is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Manufacturing Engineering and Remote Production. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agile manufacturing  
Lean manufacturing  
Flexible manufacturing  
Rapid prototyping  
Agile business processes  
Concurrent engineering/ PLM  
Supply chain management  
New product development  
Design for agile manufacture  
Agility in remote production

Quality assurance and six sigma  
Empirical methods for assessing  
lean and agile processes  
Cross-disciplinary aspects of  
agility  
Agile software development  
Agile supply chain development  
Micro/nano manufacturing  
Functional Full-scale prototyping  
Automotive industry - research and  
applications  
Reverse Engineering, verification  
and applications  
Others
