

CALL FOR PAPERS

ICBCBBE 2020
Dec 01-02, 2020
Auckland, New Zealand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCBBE 2020 : International Conference on Bioinformatics, Computational Biology and Biomedical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinformatics, Computational Biology and Biomedical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioinformatics, Computational
Biology and Biomedical Engineering
Amino Acid Sequencing
Biochemical, Cellular, Molecular
and Tissue Engineering
Bioelectrical and Neural
Engineering
Bioinformatics and Computational
Biology
Biological Data Integration and
Visualization
Biological Data Mining and
Knowledge Discovery
Biological Databases and
Information Retrieval
Biomaterials and Biomedical Optics
Biomedical Devices, Sensors, and
Artificial Organs
Biomedical Engineering
Biomedical Imaging, Image
Processing & Visualization
Biomedical Robotics and Mechanics

Biometric and Bio-measurement
Biopharmaceuticals
Bio-ontologies and Semantics
Bio-signal Processing and Analysis
Biostatistics and Stochastic
Models
Cancer Informatics
Cheminformatics
Combinatorics and Bioinformatics
Comparative Genomics
Computational Drug Discovery
Computational Evolutionary Biology
Computational Molecular Systems
Computational Proteomics
