

# CALL FOR PAPERS

**ICMSNE 2020**  
**Dec 01-02, 2020**  
**Auckland, New Zealand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSNE 2020 : International Conference on Material Science and Nanostructure Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Material Science and Nanostructure Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

#### Materials Science and Engineering:

Energy Materials  
Mining and Metallurgy  
Surface Science and Engineering  
Biomaterials and Tissue  
Engineering  
Materials Chemistry and Sustainable  
Chemistry  
Biophysics and Systems Biology  
Electronic, Optical and Magnetic  
Materials  
Advances in Instrumentation  
Technology  
Polymer Science and Materials  
Emerging Areas of Materials  
Science  
Composite Materials  
Big data in Materials Science

Metamaterials, Metadevices, and  
Metasystems  
Advances in Nano Materials Science  
Advances in Dielectric Materials  
and Electronic Devices  
Graphene Materials and  
Technologies  
Industrial Coating Materials  
Ceramic Materials  
Reconfigurable Materials and  
Molecular machines  
Novel Materials for Energy  
Applications  
Soft Matter-rich Materials Science  
Smart Materials  
Solid State and Materials Science  
Nanostructure Engineering
