

CALL FOR PAPERS

ICDDCBD 2020
Dec 17-18, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDDCBD 2020 : International Conference on Data-Driven Cities and Big Data is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Data-Driven Cities and Big Data. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Data-driven cities	Participatory and crowd sourcing techniques
Digital urbanism	Intensification and gamification
Urban data infrastructures	Citizen and crowd influence and behavioral change
Data-driven urban design and planning	Data-driven urban planning and design
Data-driven decision making	Crowd behavior capturing and modelling
Data-driven simulation and analysis	Urban mobility and intelligent transportation systems
Monitoring the pulse of the city	Smart cities
Fusion of heterogeneous urban sources	Real time urban information systems
Understanding urban data using machine learning and mining techniques	Context awareness in urban systems
Visual analytics of urban data	Privacy and data protection
City as a platform
