

CALL FOR PAPERS

ICMASAW 2020
Dec 17-18, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMASAW 2020 : International Conference on Model Application for Sustainable Agricultural Water is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Model Application for Sustainable Agricultural Water. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Field-scale to regional-scale
management of agricultural
water-resources
Sustainable agricultural
water-management under climate
change
The water productivity of food
crops and bioenergy crops

The management of salinity in
irrigated agriculture and the use
of saline water for crop growth
Water reuse and wastewater for
irrigation
The environmental effects of
agricultural water use and
management
