

CALL FOR PAPERS

ICSCPIACC 2020
Dec 17-18, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCPIACC 2020 : International Conference on Sustainable Crop Production Intensification and Adapting to Climate Change is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Crop Production Intensification and Adapting to Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The major challenges and developments in sustainable agriculture research
Intensification crop production for sustainable agriculture
Develop environmentally and profitable food production systems
Ecological sustainability of farming systems

Innovations for improving efficiency and rationale use of natural resources
Technological options and new areas of research for sustainable crop production intensification
Conservation agriculture practices for ecosystem 'functions' and 'services'
