

# CALL FOR PAPERS

**ICPSEM 2020**  
**Dec 14-15, 2020**  
**Cairo, Egypt**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPSEM 2020 : International Conference on Product Safety Engineering and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Product Safety Engineering and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Product safety engineering	System safety engineering
Product safety design	Human factors engineering
Product safety management	Risk assessment
Product safety policy and standards	Foreseeability
Design, testing, and manufacturing for safety	Regulatory and voluntary standards, the role of regulation
Products liability litigation and law	Liability prevention programs
Evaluation of product design	Product liability insurance
Failure analysis techniques	Patents and intellectual property
Design and effectiveness of warnings and instructions	Records retention policies
Evaluation of defects
