

CALL FOR PAPERS

ICAMFAM 2020
Dec 17-18, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMFAM 2020 : International Conference on Applied Mathematical Finance, Algorithms and Models is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Mathematical Finance, Algorithms and Models. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied mathematical finance	DSGE models
Modelling of financial and economic primitives	Portfolio management
Modelling market behavior	Volatility modeling
Modelling market imperfections	Macro-econometric models
Pricing of financial derivative securities	Financial markets
Hedging strategies	Empirical finance
Numerical methods	Macroeconomic dynamics
Financial engineering	Risk management
Asset pricing	Banking and interest rate dynamics
Derivative pricing	Agent based computing
Genetic models in economics and finance	International finance
Financial crisis aspects	Heterogeneous agent modeling
Risk algorithms	Computational economics and statistics
