

CALL FOR PAPERS

ICAEM 2020
Dec 17-18, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEM 2020 : International Conference on Advanced Electric Machines is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Electric Machines. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric Machines
Rotating field machines
Innovative machines and actuators
Electrical drives
Design and related problems
Condition monitoring, diagnosis and testing
Embedded applications
Grid-connected or emergency applications
PM, DC Machines and Drives
Power Converters/Inverters
Induction Machines and Drives
Synchronous Machines and Drives

Linear Machines and Magnetic Levitation
Special Machines and Applications
Renewable Energy and Related Topics
Field Analysis and Computational Method
Motion Control
Fault and Diagnosis
Designing, Manufacturing, Testing and Standards
Transformers and High Voltage Machines
Power Quality
Electromagnetic compatibility
Power Quality in Transport and Distribution
