

CALL FOR PAPERS

ICESHA 2020
Dec 17-18, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESHA 2020 : International Conference on Earth-Sheltered House Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Earth-Sheltered House Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Earth-sheltered housing

Earth-sheltered house design and construction

Landscaping for earth-sheltered housing

Energy and building performance

Bermed earth shelter

In-hill earth shelter

Underground earth shelter

Applications of earth shelter

Active and passive solar

Passive annual heat storage

Annualized geo solar

Earth tube ventilation
