

CALL FOR PAPERS

ICSM 2020
Dec 17-18, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSM 2020 : International Conference on Smart Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart manufacturing	Manufacturing intelligence and manufacturing informatics
Smart manufacturing strategies	Mobile and wireless applications
Automated material handling	Product design and virtual design
Big data analytic and applications	Yield enhancement systems and
Computational intelligence for smart manufacturing	Condition monitoring of equipment and processes
Data mining and production improvement	Energy efficiency, efficient design and systems
Data science and machine learning for smart manufacturing	Autonomous manufacturing
Decision support systems	Cyber-physical systems
Decision technologies for smart manufacturing	Computer-automated design
Equipment productivity improvement	Computational intelligence
Intelligent cooperation and resource planning
