

CALL FOR PAPERS

ICACA 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACA 2020 : International Conference on Animal Cloning Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Cloning Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal cloning
Transgenic animals
Genetically modified animals
Transgenic animals in
biotechnology
Gene transfer technology
Animal genetics and breeding
Applications of animal
biotechnology
Cloned and transgenic animals and
their regulation

Advancement in animal transgenesis
Benefits of transgenic animal and
cloning
Biopharming and gene knockout
Embryonic stem cell method in
animals
Microinjection for animals
Production of transgenic animal
Somatic cell nuclear transfer
