

CALL FOR PAPERS

ICAEOMM 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEOMM 2020 : International Conference on Advances in Electronic, Optical and Magnetic Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Electronic, Optical and Magnetic Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Film dosimetry and image analysis
Semiconductor materials
Fabrication of integrated circuits
Semiconductor devices
Soft magnetic materials
Hard magnetic materials
Dielectric materials
Electronic and ionic conduction
Ferroelectricity and
piezoelectricity
Superconductivity
Magnetic storage

Domains and hysteresis
Electromagnetic radiation
Optical properties of metals and
non-metals
Photoconductivity
Optical communications and
networking
Lasers
Optical devices
Quantum science and technology
Spintronics
Photonic devices and applications
