

CALL FOR PAPERS

ICAGR 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGR 2020 : International Conference on Animal Genome Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Genome Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal gene mapping
Animal and plant genomic research
Genome mapping and genomics in animals
Animal genome research
Gene mapping of farm animals
Animal health and disease

Molecular and quantitative animal genetics
Advances in livestock genomics
Horse genome project
Chicken gene map
Animal cytogenetics, gene mapping and chromosome research
Animal cytogenetics and genomics
