

CALL FOR PAPERS

ICAIDTMM 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIDTMM 2020 : International Conference on Advances in Infectious Disease Therapies and Medical Microbiology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Infectious Disease Therapies and Medical Microbiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Immunity to microbial infections
Infection and immunity
Infectious disease surveillance
Phylogenetics of infectious diseases
Infection control in healthcare facilities
Outbreak investigation
Sterilization and disinfection
Personal protective equipments
Surveillance for infections
Pathology of infections
Molecular pathology
Clinical pathology
Veterinary pathology

Advancements in diagnostic pathology
Bacterial pathogenesis
Plant bacteriology
Veterinary bacteriology
Bacterial identification
Bacterial diagnosis
Infectious diseases
Microbial diagnosis
Molecular applications
Treatment and prevention
Chemical microbiology
Microbial metabolism
Microbial genetics
