

CALL FOR PAPERS

ICCAMDAS 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAMDAS 2020 : International Conference on Computer Aided Modeling, Design, Analysis and Simulation is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Aided Modeling, Design, Analysis and Simulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer aided modeling, simulation and analysis

Computer aided modeling and analysis (novel algorithms or applications in biology, physics, chemistry, mathematics, and mechanics)

Data processing, mining, and fusion

Optimization and machine learning
Finite element, boundary element, or meshless simulation
Computer vision and image processing
