

# CALL FOR PAPERS

**ICESET 2020**  
**Dec 10-11, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESET 2020 : International Conference on E-Systems Engineering and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of E-Systems Engineering and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

E-systems engineering  
E-systems engineering and applications  
Advances in e-systems engineering  
E-systems  
E-learning  
E-government systems  
Autonomic computing and AI  
E-business and management  
E-health and e-medicine

E-science and technology  
E-security and e-forensics  
E-entertainment and creative technologies  
E-networking and wireless environments  
E-ubiquitous computing and intelligent living  
Green and sustainable technologies  
E-culture and digital society  
E-sport and exercise sciences
