

CALL FOR PAPERS

ICGESTA 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGESTA 2020 : International Conference on Grid Energy Storage Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Grid Energy Storage Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Grid energy storage
Grid scale energy storage applications
New options and technologies for grid energy storage
Grid-oriented battery technologies
Demand side management and grid storage
Electric grid energy storage

Electrochemical energy storage
Lithium ion batteries
Sodium-sulfur and sodium-metal halide batteries
Redox-flow batteries
Energy storage strategic goals
