

CALL FOR PAPERS

ICISOMMA 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISOMMA 2020 : International Conference on Industrial Systems, Operations Management and Manufacturing Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Systems, Operations Management and Manufacturing Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial Intelligence
Construction Management
Data Analytics
Decision Sciences
Energy and Resource Efficiency
Facilities Planning and Management
Healthcare Systems
Manufacturing Applications
Human Factors and Ergonomics
Inventory Management
Knowledge Management
Lean and Six Sigma

Logistics, Transport and Traffic
Management
Modeling and Simulation
Operations Management and
Operations Research
Production Planning and Control
Project Management
Quality, Reliability and
Maintenance
Service Systems and Service
Management
Supply Chain Management
Sustainability and Green Systems
Sustainable Manufacturing
Systems Engineering
