

CALL FOR PAPERS

ICMEMP 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEMP 2020 : International Conference on Molecules in Engineering and Mechanical Properties is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecules in Engineering and Mechanical Properties. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular engineering
Molecular interactions
Composites
Mechanical properties
Smart materials and devices

Functional materials
Electrical properties
Engineering applications
Biomedical applications
Synthetic biology
