

CALL FOR PAPERS

ICPTEA 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPTEA 2020 : International Conference on Power Transmission Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power Transmission Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power transmission engineering
Power transmission engineering and fluid power
Electrical power transmission system and network
Power transmission and distribution for electric distribution systems
Power transmission products and solutions
Mechanical power transmission
Gear transmissions
Belt transmissions
Transmissions by friction
Components: couplings, bearings, shafts, etc.

Chemicals and fuels
Other power transmissions
Structure and components
Materials and technological processes
Phenomenological considerations and theoretical studies and researches
Other product development aspects
Maintenance and operating
Industrial applications
Marketing
Education
