

# CALL FOR PAPERS

**ICQSMQTM 2020**  
**Dec 10-11, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQSMQTM 2020 : International Conference on Quantum State Machines and Quantum Turing Machine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum State Machines and Quantum Turing Machine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum state machines  
Quantum computation and Quantum  
Turing machine  
Quantum supremacy and quantum  
decoherence  
Measure-once quantum finite state  
automata

Measure-many quantum finite state  
automata  
Latvian quantum finite state  
automata  
Dense quantum coding  
Geometric generalizations
