

CALL FOR PAPERS

ICSEET 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEET 2020 : International Conference on Science, Environment, Ecology and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Science, Environment, Ecology and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied science, ecology,
environmental engineering, natural
science

Energy and environmental
biotechnology

Biology, hydrobiology and ecology

Advanced biochemistry

Water and wastewater engineering

Environmental planning and
management

Environmental toxicology

Geology, geophysics and geological
engineering

Nanotechnology

Fundamental and applied sciences

Water pollution and control

Water and aquatic products

Sea and lake pollution

Air pollution and control, noise
pollution

Renewable energy sources, solid
wastes

Agriculture, land development and
pollution

Land irrigation systems

Environmental law, politics and
policy

Economics, law, ethics and culture
of environment

Ecotourism management and
sustainable development

Basic science, chemistry, chemical
engineering, biochemistry

Adsorption principles

Advanced chemical engineering
thermodynamics

Advanced process control

Chemistry and advanced transport

Polymer physical structure and
chemistry
