

CALL FOR PAPERS

ICSGTSC 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSGTSC 2020 : International Conference on Smart Grid Technologies and Smart Cities is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Grid Technologies and Smart Cities. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

End Users and Demand Response
Integrated Infrastructures
Energy Storage, Distributed
Generation and Microgrids
Development of Standards for Smart
Grids
Electric Vehicle Integration in
Smart Cities
ICT Services in Smart Grids/Smart
Cities
Industry, Municipality and
University Cooperation
Smart Energy Systems

Sustainable Cities
Zero Energy Buildings
Smart Grid Standards
Smart Grid and Smart Energy
Energy Needs and Environmental
Challenges in Urban Environments
Smart Grids for Smart Cities
Smart Urban Environments and Energy
