

CALL FOR PAPERS

ICSM 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSM 2020 : International Conference on Science of Measurement is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Science of Measurement. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Measurement, analysis and testing
processes and technologies
Evolution of techniques, advances
in R&D and industrial applications
Metrology and precious measurement
Jigs and fixtures
Surface finish measurement
Linear and different angular
measurement
Alignment testing of machine tools
Measurement, analysis and testing
processes
Uncertainties, traceability
Inter-laboratory comparisons
Calibration
Verification

Training
Cost optimization
Certification
Metrology function
Measurement technics
Mass, force, flow and pressure
Dimensional, electricity
Time-frequency
Temperature
Hygrometry
Optics and photonics
Ionizing radiation
