

CALL FOR PAPERS

ICVB 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVB 2020 : International Conference on Ventilation in Buildings is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ventilation in Buildings. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building ventilation
Advanced ventilation technologies
Mechanical ventilation of buildings
Types of mechanical ventilation
Natural, mechanical, and hybrid ventilation
Typical mechanical ventilation systems for commercial buildings
Building management systems
Building regulations requirements

Indoor air quality in low energy
Nearly zero energy and positive energy buildings
Control of internal pollutants
Ingression of external pollutants
Removal of overheating risk and moisture build-up risks
Assessing ventilation performance
Comparison of mechanical and natural ventilation
