

CALL FOR PAPERS

ICWEEM 2020
Dec 10-11, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEEM 2020 : International Conference on Web Effort Estimation Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Effort Estimation Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web effort estimation
Software effort estimation
Effort estimation techniques
Emerging web effort estimation methods
Expert opinion
Algorithmic techniques
Artificial intelligence techniques
Measuring effort prediction power and accuracy
Measuring predictive power
Measuring predictive accuracy

Data validation
Variables and model selection
Extraction of effort equation
Model validation
Function point method
Constructive cost model
Web objects
Effort estimation of web based applications
Web effort estimation using classification and regression trees
Cost estimation techniques for web projects
