

# CALL FOR PAPERS

**ICAOAP 2020**  
**Dec 10-11, 2020**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAOAP 2020 : International Conference on Acoustical Oceanography and Acoustic Predictions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustical Oceanography and Acoustic Predictions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustical oceanography  
History  
Equipment used  
Theory  
Ocean acoustics  
Measurements  
Sound speed  
Absorption  
Ambient noise  
Reverberation  
Bottom loss  
Applications  
Depth sounding

Marine biology  
Underwater sound  
Sound waves in water  
Speed of sound, density and impedance  
Absorption of sound  
Sound reflection and scattering  
Boundary interactions  
Surface  
Seabed  
Fish population surveys  
Classification of fish species and other biota  
Rain rate measurement  
Wind speed measurement
