

CALL FOR PAPERS

ICDTM 2020
Dec 28-29, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDTM 2020 : International Conference on Directions of Traditional Medicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Directions of Traditional Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:
