

CALL FOR PAPERS

ICAGEM 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGEM 2020 : International Conference on Advances in Green Energy Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Green Energy Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanotechnology for water, air and soil protection
Nanomaterial's and photocatalytic nanoparticles for water and air detoxification
Nanomaterial's and nanostructures for storage, gas sorption and sensing

Materials for energy saving and sustainability
Applications of functional energy materials
