

CALL FOR PAPERS

ICAGRS 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGRS 2020 : International Conference on Applied Geodesy and Remote Sensing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Geodesy and Remote Sensing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied geodesy

Navigation and mobile mapping

Optical and microwave 3D
measurement techniques

Satellite-based geodetic networks

Deformation measurements

Deformation analysis

Modelling of local geodynamic
processes

Intelligent alert systems

Measurement techniques for large
construction sites

Mechanical engineering

Sensor control

Sensor fusion

Global positioning system

Particle accelerators

Mathematical geodesy
