

CALL FOR PAPERS

ICAHSRHHGC 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAHSRHHGC 2020 : International Conference on Advances in Hydrogen Storage Materials Research and Hydrides with High Gravimetric Capacity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Hydrogen Storage Materials Research and Hydrides with High Gravimetric Capacity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hydrides with high gravimetric capacity
Hydrides with new function
Hydrogen storage alloys
Inorganic hydrides
Organic hydrides

Hydrogen adsorption materials
Composite materials for hydrogen storage
Novel analytical techniques for hydrogen storage materials
Novel computational techniques for hydrogen storage materials
