

CALL FOR PAPERS

ICBEB 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEB 2020 : International Conference on Biology and Ecology of Bioinvaders is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biology and Ecology of Bioinvaders. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biology and ecology of bioinvaders
Management of invasive exotics
Marine bioinvaders
Bioinvader species and plants
Invasive plant management
Taxonomy and invasive species
Prevention, survey and detection
Ecological and economic impacts and invasion management

Controlling invasive species and restoring habitat
Advantages and disadvantages of invasive species management
Invasive species management for wildlife and forestry
Resource protection and long-term management
Purpose of controlling invasive species
Planning to control invasive species
Pressures on management and restoration
