

CALL FOR PAPERS

ICCEBE 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEBE 2020 : International Conference on Civil, Environment and Building Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil, Environment and Building Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geological engineering
Earthquake engineering
Surveying engineering
Geotechnical engineering
Municipal engineering
Structural engineering
Bridge engineering
Tunnels, subways and underground engineering
Marine engineering
Disaster prevention and reduction engineering
Building electrical engineering
Mining engineering
Engineering investigation

Cartography and geographic information system
Structure inspection and reinforcement
Water supply, drainage, heating, ventilation and air conditioning engineering
Computer simulation
Engineering management
Construction technology
Green building and environmental protection
Civil engineering materials
Mineral process engineering
Safety engineering
Clean, renewable and new energy
Natural resources engineering
Metallurgical engineering
