

CALL FOR PAPERS

ICCSS 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSS 2020 : International Conference on Construction Scheduling Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Scheduling Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction planning
Construction planning and scheduling
Planning techniques
Procedures and methods
Estimation of resource requirements
Scheduling systems
Monitoring and control
4D simulation
Planning and design
Construction planning, equipment, and methods

Construction planning and management
Planning in practice
Effective construction planning
Planning and scheduling in construction management
Strategic construction planning
Construction process planning and management
The construction planning management methodology
Project management for construction
Construction site assessment and planning
Construction plan implementation
