

CALL FOR PAPERS

ICEPAP 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPAP 2020 : International Conference on Environmental Policies for Air Pollution is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Policies for Air Pollution. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Air pollution
Pollutants
Sources
Control devices
Environmental policies
Air pollution control
Air pollution forecasting system
Regulations
Management
Air quality law
Air pollution concentration
National-scale air toxics assessments
Governing urban air pollution

Health effects
Air quality
Alternatives to avoid air pollution
Reduction efforts
Air pollution measurement vehicle
Anthropogenic (man-made) sources
Natural sources
Emission factors
Industrial air pollution
Agricultural air pollution
Hazardous air pollution
Air pollution exposure
Indoor air quality (IAQ)
