

# CALL FOR PAPERS

**ICIPETA 2020**  
**Dec 10-11, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIPETA 2020 : International Conference on Industrial Power Engineering, Technology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Power Engineering, Technology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial power engineering  
Next generation industrial power engineering  
Electric motors  
Switchgear assemblies and captive power generation  
Voltage surges, over voltages and grounding practices  
Power capacitors

Bus systems  
Selection, testing, controls and protection of electric motors  
Switchgear assemblies and captive power generation  
Voltage surges, over-voltages and grounding practices  
Power capacitors
