

CALL FOR PAPERS

ICITMIVD 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICITMIVD 2020 : International Conference on Immunological Techniques, Molecular Immunology and Vaccine Discovery is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Immunological Techniques, Molecular Immunology and Vaccine Discovery. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational methods for immunogenicity evaluation
Immunogenicity assessment for peptide therapeutics
Immunogenicity assessment for biosimilars
Immunotoxicity evaluation of novel drug candidates
Protein aggregation, biological activity and immunogenicity
Immunological techniques
Immune regulation
Immunological aspects of infection
Immunological aspects of skin diseases
Immunological aspects of allergy and anaphylaxis
Immunology of HIV infections
Immunological aspects of cardiac diseases
Immunological aspects of renal diseases

Immune-mediated neurological syndromes
Immunological aspects of endocrine diseases
Immunogenetics
Molecular oncology and immunology
Innate immune system
Immunopathogenesis
Immunomicrobiology
Immunoglobulins
Immunoglycomics
Immunoproteomics
Immunoprophylaxis
Molecular vaccines
Antibody engineering
